

We are currently using the Nancy Caroline, Eighth Edition textbook for the Paramedic Program. In addition to the textbook, you will need to have access to Fisdap which is an online program for scheduling clinical and ride shifts and tracking skills. Fisdap can be purchased separately or with the textbook. Your options for the textbook and Fisdap are listed below.

OPTION #1

This is a hardcover textbook that includes an audio version and a few other tools such as flash cards. With this option, Fisdap would need to be purchased separately (see below).
